

# FIREWOOD ALERT!

## HELP STOP THE SPREAD OF INVASIVE FOREST PESTS.

Our forests are threatened by invasive tree-killing pests like emerald ash borer, spongy moth, and Asian longhorned beetle that can hitchhike on firewood.

### HOW YOU CAN HELP:

- Leave firewood at home – buy local firewood at or near your destination, or collect firewood on site when permitted.
- Buy or collect only what you'll need, and burn it all completely by the end of your stay.
- If you have already moved firewood, use it immediately. Do not take it home with you, and do not leave excess firewood on site.

## BUY IT WHERE YOU BURN IT.
